

Over 100 years of experience in vehicle production and a broad range of services make **MAGNA STEYR** *the worldwide leading brand-independent engineering and manufacturing partner* for OEMs.

Our extensive range of services covers five product groups:

- **Engineering Services:** From systems and modules to complete vehicle engineering
- **Vehicle Contract Manufacturing:** Flexible solutions from niche to volume production
- **Fuel Systems:** Innovative fuel systems
- **Battery Systems:** Li-Ion battery systems for vehicle applications
- **Roof Systems:** Entire range of roof systems

The product group Battery Systems develops and produces high- and low-voltage battery systems for hybrid and electric vehicles, as well as 12 V batteries for starting applications and on board power support. In this field we focus on passenger cars and heavy duty vehicles. The product group of Magna Steyr is represented globally with locations in Austria and the USA.
